

ENVIRONMENTAL, HEALTH & SAFETY PARTNERS

WE ARE PLEASED TO ANNOUNCE THAT FS&D AND KERAMIDA ARE PARTNERING TO PROVIDE INDUSTRY PROCESS KNOW-HOW COMBINED WITH ENVIRONMENTAL EXPERTISE

MITIGATING RESPIRATORY SILICA ISSUES

Two of the most respected names in the foundry industry have partnered to provide the full range of services to assist our clients in compliance to the new OSHA Silica Regulations, as well as other Environmental, Health, Safety and Security Regulations.

FS&D and Keramida can assist with the following Respirable Silica Reduction Program:

- Assembling and Documenting the Exposure Control Plan
- Exposure Studies and Mapping
- Evaluation of Existing Processes and Practices (Foundry Audit) to Determine Source and Work Practice Reduction Opportunities
- Reassess Respirable Silica Exposure Levels
- Investigate and Recommend Ventilation / Air Pollution Control Improvements
- Assistance with Process Control Improvement Implementation and Related Services

Our professional staff's deep understanding of foundry processes, environmental and health & safety issues, carbon footprints, technologies, risks, regulations, and strategies, together with our more than 30 years of experience in iron, steel, aluminum and brass foundries are an asset to our foundry clients.
